

## INTEGRATED BUILDING MANAGEMENT

Take integration to a new level with a complete set of solutions to centrally manage the vast amounts of information your building generates every day. From the smallest system to the largest; our Open Interoperable Systems provide powerful HVAC control, unmatched flexibility, complete interoperability and efficient energy management.

## SECURITY AND ACCESS CONTROL

With wide ranging building management integration and interfaces at all levels of our systems, Schneider Electric also offers the strongest security solutions on the market. And thanks to our scalable architecture, and secure yet open networks, the system can be cost effectively expanded as needed.

## POWER AND LIGHTING

Eliminate the need for costly hard-wired interface panels, custom software, and duplicate networks and controllers. Schneider Electric offers seamless integration with lighting, power management and power distribution systems to gain even more control over your energy costs.

## DIGITAL VIDEO

Video retrieval is fast and easy with Schneider Electric's integrated DVR solutions. View live video as well as retrieve and view recorded video. Search events by time, date, location, camera, alarm, and more.

## WEB SOLUTIONS

Schneider Electric web solutions provide anytime, anywhere access. Reduce software and upgrade costs, as well as training time. Retrieve real-time building data and reports, handle alarms, change set points, and perform system diagnostics and routine maintenance instantly. Decrease your maintenance costs with software that is secure, yet intuitive.
